

## Flow Injection Analysis (FIA), ortho-phosphate method

### Video Notes

- What are the advantages of the FIA instrument?
- Some of the analytes (chemical compounds or elements) that FIA can be used to analyze for are:
- Things that will be method-specific:
  - 
  - 
  - 
  -
- What is the detector measuring?
- Why do you need standard solutions?
- What sort of number will you get from the FIA software? Are further calculations necessary?
- What procedures have you learned about in these modules that could use FIA for the final analysis?
